

Monitoring & Observability

Waffles@HOME

Online events...

- They are not great
- We will make this the best FONLINE we can
- Hope to see you in person next

Send photos!

Transparency notice

In between real life, a pandemic, and Carl and me finally convincing Fabian to join, the devroom managers are Grafana-only this time.

You'll notice that the schedule does ***not*** reflect that

Schedule

Adopting OpenTelemetry and its collector
Vincent Behar

Schedule

Bootstrapping a multi dc cloud native observability stack

Bram Vogelaar

Schedule

Introduction to Continuous Profiling using Pyroscope

How to debug performance issues using profilers

Ryan Perry

Schedule

Monitoring Kafka without instrumentation using eBPF

A talk about Pixie, Kafka and what's next in observability

Anton Rodriguez, Ruizhe Cheng

Schedule

Periskop: Exception Monitoring at Scale

A pull-based exception monitoring service inspired by Prometheus

Jorge Creixell, Marc Tuduri

Schedule

Profiling in the cloud-native era
Matthias Loibl

Schedule

Unikraft Performance Monitoring with Prometheus
Cezar Craciunoiu

Schedule

What More Can I Learn From My OpenTelemetry Traces?

John Pruitt

Code of Conduct

@bergquist

@fstab

@RichiH

conduct@fosdem.org

Be excellent to each other

Hug you next year
