World's largest conference

- 788 events
- 408 hours 40 minutes of content
- 600+ speakers
- 63 tracks, 47 of them devrooms
- 65 stands

Useless numbers...

- How many MAC addresses did we see?
 - 2017: 11614
 - 2018: 175,000+
 - 2019: 123,875
- Privacy extensions and other mechanisms actively hide and inflate those numbers
- We could mirror all traffic and do deep packet analysis to fingerprint you
- ...but we won't (duh!)

Reminder

- 2017, we felt the need to inform about what networks we do and do not run
- 2018, we felt the need to talk about MITM
- 2019, we had some script kiddies try and ARP spoof our default gateway
- State actors gather a lot more data about you than anyone at FOSDEM ever could

What do!?

- Use encryption
- Use VPNs
- Use encrypted services
- Did I mention encryption?
- ...and if you see any black hats, script kiddies, and 1337 h4xx0rz, send them to the NOC; they didn't claim their present yet

Proper network ops

- ULB granted us access to the WLC
- Next year, we will hopefully be able to use more advanced security on the WiFi links
- By the by: the number one user agent in all of our network is... Prometheus :)

IPv6 is here

- First year we had more IPv6-only clients than dual-stack clients
- FOSDEM-legacy carries a LOT more VPN traffic
- ..so those are probably stuck on v4 for VPN reasons
- Good on you to use VPN :)

Swag

- 272 hoodies
- 1900 straight-cut t-shirts
- 301 fitted t-shirts
- Record run-out: L hoodies Saturday at 12:07:40

Food

- 1000 pasta
- 900 kg fries
- 400 wraps
- 1200 fried snacks
- 250 bread rolls
- 800 kebab
- 700 chiliburgers
- 140 liters of soup
- 250 brownies
- 750 BBQ burgers
- 2000 sugar wafels
- 200 kg wafels
