Important security notice about the conference internet

The official network names (SSIDs) on the campus during FOSDEM are:

- FOSDEM
- FOSDEM-ancient

FOSDEM has not provided any other internet access.

Important security notice about the conference internet

- FOSDEM was informed of possible attempts, at several FOSDEM locations, to harvest usernames and passwords.
- E.g. the use of the network name (SSID) "FOSDEM FreeWifi by Google" was neither authorised nor condoned by FOSDEM. This network presented a login page resembling a login page of Google.
- FOSDEM is taking action regarding these incidents.
