Fixing 2017

Our FOSDEM Community

"...we strive for diversity, openness, broad tolerance. Most of what we learn and teach comes through informal channels.

We are smashing the barriers of distance, wealth, background, gender, and age." [PIETER HINTJENS](#)
in memoriam 3d December '62 - 4th October '16

The slide features a large central text area with a black border. To the right of this area is a decorative graphic consisting of several interlocking gears of different sizes, with the text 'FOSDEM 2019' in pink below them. At the bottom right, there is a small inset video frame showing a person in a yellow jacket standing at a podium with a FOSDEM logo.

...about us

World's largest conference

- 350+ hours of content
- 600+ speakers
- 42 devrooms
- 56 stands

Richard Hartmann, RichiH@{freenode,OFTC,IRCnet}, richih@{fosdem,debian}.org

FOSDEM closing talk

Useless numbers...

- How many MAC addresses did we see?
 - 2017: 11614
 - 2018: 175000+
- Privacy extensions and other mechanisms actively hide and inflate those numbers
- We could mirror all traffic and do deep packet analysis to fingerprint you
- ...but we won't (duh!)

Others can do the same

- As attacks become easier and cheaper, more stupid people can play 1377 haxx0r
- Last year, we felt the need to inform about what networks we do and do not run
- This year, we felt the need to talk about MITM
- State actors gather a lot more data about you than anyone at FOSDEM ever could

What do!?

- Use encryption
- Use VPNs
- Use encrypted services
- Did I mention encryption?
- ...and if you see any black hats, send them to the NOC;
they didn't claim their present yet

Food

- 900kg fries
- 60kg mayonnaise, 35kg ketchup, & 20kg sauce andaluse
- 390 wraps
- 480 beef & 600 chili burgers
- 385 pizza slices
- 1300 hotdogs & bratwurst
- 550 kebabs
- 100 liters of soup
- 250kg chicken
- 2500 sugar waffles
- 150 brownies
